Ingersoll Rand®

SIMPLE. FLEXIBLE. CAPABLE.

When trying to achieve simple manufacturing goals in a complex manufacturing world, taking control of and understanding the fastening process doesn't have to be complicated. Ingersoll Rand offers a variety of intuitive fastening technologies that allow for consistent precision, reliable feedback, and controllability for any data driven assembly process.

Stanley's line of smart fastening technology is engineered for precision and offers a variety of assembly tools and systems that include hand-held, pneumatic, cordless, and corded tools to install rivets, lock-bolts, inserts, and other fasteners. Stanley delivers improved productivity and quality with performance driven torque tool solutions for assembly.

Desoutter ensures precision torque from electric and pneumatic tools during quality-critical tightening tasks. Optimize tool performance, reduce quality cost in assembly and increase accuracy with full data traceability and integrated software.

Hyspeco is dedicated to being your tool and assembly solutions provider. Our close partners build quality products that our customers trust and rely on.

1 million cycles maintenance-free

YOUR INDUSTRIAL LIFT EQUIPMENT PROVIDER

Ingersoll Rand.

Material handling needs differ from application to application. Ingersoll Rand offers a wide range of hoists, trolleys, beam clamps, rail systems, and balancers to meet any of your ergonomic and material handling needs. Ingersoll Rand offers industry-leading durability, precision, and flexibility that is built to perform under the harshest industrial environments.

- Up to 200 Metric Ton Lifting Capabilities
- Variable Lifting Speed & Durability
- Class 1, Division 1 & Class 1, Division 2 Options
- Air Chain Hoists
- Electric Chain Hoists
- High Duty Cycles
- Precision Control & Custom Solutions

Hyspeco is your Midwest industrial lift equipment solutions specialist, backed by reliable manufactures and durable technology. We provide technical support, setup, repair, and certification of all lift equipment we sell. For more information contact your local Hyspeco representative or call (800) 234-1041.

Uesco Cranes manufactures standard and custom engineered lifting systems for robust overhead material handling tasks. With a variety of drive options including hand push, hand geared, and dual motor options, Uesco builds crane solutions for any application.

REPAIR & REBUILD SERVICES

Our rebuild experts specialize in a wide range of calibration, repair, and rebuild services. From assembly tools to industrial tools, impacts, hoists and winches, calling Hyspeco is the first step in locating your repair solution. Consider letting us diagnose and quote a repair and rebuild on your current tools and lifting equipment. Each of our repairs is backed by a limited warranty.

- Hoists
- Winches
- Air Motors
- Balancers

Tested to ASME STANDARD B30.16

LIFTING EQUIPMENT

- Impacts
- Grinders
- Screwdrivers
- Angle Wrenches

We service and repair tools to factory specifications. Hyspeco will assess, measure, research, and test to ensure the best repair.
